

AKADEMIK SERGEY VAVILOV

2010 - 2011

AKADEMIK SERGEY VAVILOV

Scandinavian built for the Russian Academy of Science, this ship was designed to travel quietly, during hydro-acoustic research. The ship is exceptionally stable, yet maneuverable. External stabilizers and a built-in trimming system provide exceptional stability. ***Akademik Sergey Vavilov*** has an ice-strengthened hull and a cruising speed in open water of 14.5 knots.
